

The Scoop

A Newsletter for FPI Testers

April 2015

Finally... Spring Has Sprung!

And we've got some Spring cleaning to do! Many adults on our database are still sharing an email address with another adult – a remnant of our old website. Since email address is now also the username for accounts on FPI Testers, shared email addresses can cause log in problems for all adults using that email address.

If you and another adult are still sharing an email address, contact our customer care team to update your email address to one that is unique to you. Several email providers, including Yahoo and Gmail provide free email service.

A Look At Some Upcoming Tests:

Why Do I Get Emails For Tests I Can't See?

When we send notifications about tests, we send them to thousands of people who fit the basic requirements. Email lists this large must be sent in batches over a 24-hour period. If you aren't among the first to receive and open the email, some quotas may fill before you even receive it. If you fit into one of those filled quotas the test won't appear in your available tests.

However, there may be other tests available to you. Please check them out! New tests are added every day and you don't need an email invitation to see them!

Enjoy Testing with FPI?

Do you have friends or family that would enjoy testing with FPI? Please tell them about us! Here are five benefits to being an FPI Tester:

- You represent thousands of other people when you test. You are very important in helping to decide which products make it to grocery store shelves!
- If you donate your proceeds to a registered non-profit organization, you help them achieve their goals.
- You eat food, share your opinions, and get paid. What could be better than that?!
- It's a great way for kids to earn money!
- It's FUN!

We have a current need for Hispanic/Latino and Black/African American testers. Thanks for helping us spread the word!

Thank You For Being An FPI Tester!
Sharing Your Opinion Pays!
