

# The Scoop

## A Newsletter for FPI Testers

August  
2014

### **FPI Testers Website News**

It's almost here! Our new website and recruiting system will be put in place over Labor Day weekend. You will notice many improvements, including the ability to:

- Choose your own user name and password (no need to remember your PID and PIN).
- Easily access our website from your mobile device.
- Choose the amount you wish to donate to your fundraising organization (\$0, \$10, or the entire amount).
- Access your kids' information and tests from your own contact page...their information will be connected to your profile.
- See when you last tested.

We ask for your patience during this transition period, and if you experience any difficulties, please contact our Customer Care department for assistance.

### **Enjoy Testing with FPI?**

We want to hear from you! Tell us what you like about testing with FPI, for a chance to have your comments featured on the home page of our brand new website! Paste this link into your address bar to submit your comments.

<http://tinyurl.com/sharemycomments>

### **Email Addresses**

For an optimal experience on our new website, we encourage every registered adult tester to provide a unique email address which is not shared with another adult tester.

By providing us with your own email address, you ensure that the emails we send to you are focused on *you* and the tests *you* are likely to qualify for. You may register for a free email address at yahoo.com or gmail.com.

### **A Reminder For Our Young Adult Testers**

Under our new system, all testers age 18 and older must have their own contact information. If you originally registered as a child under your parents' account, you may need to update your information before August 31st.

Please call our Customer Care department to ensure that you are registered as an adult tester in order to remain active as an FPI Tester. Thank you!
