

The Scoop

A Newsletter for FPI Testers

May
2014

Why Are So Many Tests Held in Plymouth?

If you have ever been to a test at our FPI headquarters in Plymouth, you may have noticed our wonderful facility. Our kitchens are equipped to accommodate every need and our discussion group and taste test facilities have the technology to handle any situation. Our clients often require the use of these unique facilities for their tests.

We understand that many of our testers cannot easily test at our Plymouth location. Therefore, whenever testing conditions allow us the opportunity to schedule a test in another part of the metro area, we take it. We want all of our testers to have a chance to participate!

I'm Vegetarian... Can I Test?

Yes! Many of our tests are for products that do not contain meat. Our screening surveys usually end with a question that asks if you would be willing to try the product we are testing. If you have qualified for the test up to that point, you may decide whether you are willing to try the product or not, based on your specific dietary needs.

During the first week of May we have a test that requires a portion of the testers be vegetarians. If you are interested in trying to qualify for this test, go to www.fpitesters.com and click on Tester Info. Login, click Available Tests and look for **test #07738**. Be sure to tell your friends and family about this test too!

I Feel Like I Never Qualify!

Why is it that some people qualify for tests easily while others never seem to qualify for anything? Disqualifying from several screeners in a row may make it seem like you'll never qualify. If you have tried repeatedly to qualify without success, one of these issues may be the reason:

Review your personal profile – is it accurate? Certain information for our screening surveys comes directly from your profile. Answer thoughtfully and honestly. Don't try to guess what will qualify. We are often looking for users *and* non-users of a particular product. Are you employed in the food, marketing or advertising industries? We do not allow people to test if they are employed in one of these industries.

Remember; for your best chance to qualify do not wait for an email invitation from us. Check your Available Tests frequently. The easiest tests to qualify for often fill with no email support at all.
